over the form of consing error anxiety here, where it is locked upon as a possible renance to immediate adjustment of the Greco-Italian situation. It is feared that in the event of hostilities Italy will find some pretext to continue the occupation of Corfu, the evacuation of which aeems to be the uppermost factor in Greek circles.

in Greek circles.

Advices from Belgrade say the populace of the Jugo-Slaviat capital is in a state of high excitement, and that the government will follow step by step every military move taken by Italy.

The Albanians have closed their Greek frontier, according to published reports, and are arming all the men of military age in the eastern part of the country.

MORE WRANGLING.

Meacow cust into the controversy to remark
that Wrangel island has belonged to Russia for
about a hundred years. If the territory was worth
dighting about the claim could be easily disputed
on the ground of non-occupation. As matters
stand Britain is not at all likely to go to war with
the Soviet power over the proprietorship of an
island that neither has thought worth having, and
Canada could not if it wanted to, which it doesn't.

NO RECORD OF ECONOMY.

Hon. Mr. Meighen told a Winnipeg audience that what Canada chiefly needs is a drastic reduction in expenditure by the Dominion Govern As the net amount of the national debt or ment. As the net amount of the national debt on August 31st was \$2,403,596,995 there is not much room to dispute the claim that economy is impera-tive. But just where does Mr. Meighen get his credentials as the financial Moses who is to lead credentials as the hnancial Moses who is to lead us out of the wilderness! Mr. Meighen was the outstanding member of the Dominion Government duringthe fiscal year 1919-20, as he had been for some years previously, and in mid-summer of the some years previously, and in mid-summer of the interpreva was closen to succeed Sir Robert Bor-den as Premier. Yet during that fiscal year the national debt was increased by the rather impre-sives sum of \$674,000,000. That was the second year after the war had ended. In only one preceding year had the country gone behind more than half as much—1919. For that year, with Mr. Meighen as much—1919. For that year, with Mr. Meignei as a member of the cabinet, the shortage war \$382,000,000. For 1921, with the war three years behind, the Government of Mr. Meighen had a deficit of \$92,000,000. HAVE YOU A BIG BUILDING TO HEAT THIS WINTER?

If you have a block or large building to heat this winter, we solicit an opportunity to talk over the heating proposition with

you.

That is the reason why we are in the gas business in Edmon-Int is the reason why we are in the gas business in Edmonton, why we are "pending four million dollars on a natural gas system, why our payroll is over \$5,000 a day now, why we have over eight hundred men working now, and many of them working overtime—in order to build up a first-class gas heating system. We expect that a big proportion of the gas we sell in Edmonton will be used for heating purposes.

We are in the business to heat your block, whether it is a big one or a all one. The new Gas Rate Schedule recently made by the Public Utilities ard gives block owners one of the most reasonable gas rates on this con-

timent.

Hundreds of cities and towns in America heat their public buildings, business blocks, apartment houses, hotels, hospitals, schools, churches, etc., with natural gas. We are in business to heat every large building in Edmontor, and desire you to carefully consider gas heating, and its economical advanatages, before arranging fuel contracts for the winter.

In Pittaburgh, in the centre of the hard coal area of the United States, hundreds of blocks are heated by natural gas.

Closer home—at Medicine Hat—all large buildings are heated with natural gas.

Closer home—at Medicine Hat—all large buildings are heated with natural gas.

We believe we have the best gas field on the continent to draw our supply from, and we are spending a lot of money to back up our knowledge and opinion, and we are in the field to serve you.

We have everything that is modern in gas burning appliances, and we want to see the best fixtures installed in Edmonton services the handling of the work of the property of the part of the part of the property of the part of the
